Important Notice

On account of the recent tremendous increase in the costs of everything connected with the operation of our mechanical department we are compelled to again increase our prices on Job Printing.

Paper is soaring in price and hard to get at that. There is hardly a day passes but what we get a notice of a change in price—and the changes are always upwards. The paper on which this is printed is now quoted at a much higher price than ever before in the history of the publishing business.

While the increases in the paper used in the manufacture of Job Printing has not increased quite so much as has news print—yet the increase has been enough to make it imperative that we increase our prices to offset the increase to us.

We shall keep the price of the paper at \$1.50 per year until we can get into another building and produce an 8 page paper—which we hope will not be many more months. Possibly by that time the paper market will have settled and we will not have to increase the price of the paper at all—however it will be time enough to worry about that when the time comes.

The only increases in our advertising rates will be in the readers or pay locals. The new prices on this class of advertising will be ten cents per line with a minimum charge of fifty cents—effective at once. Obituaries will be printed at one cent per word—cash with copy. By obituaries we do not mean the news item of the party's death—an obituary is an eulogy of some one written often after a considerable period of time has elapsed after the person's death and for that reason of no news value.

We assure our customers that if the time ever comes that our costs of production decrease that we will lower our prices proportionately—all we want is a fair profit—to which every business is entitled.

HURT WHILE POSSUM HUNTING.

Sylvan Moore, grandson of Judge James A. Moore, while out possum hunting on last Friday night with his uncle, A. C. Moore, was rather seriously injured by falling from a tall hickory sapling that he had climbed for the purpose of shaking out the top of the hickory, which was standing on the side of a bluff, it bent over leaving Sylvan hanging some thirty feet from the ground. He was unable to again get back to the body of the tree and there was no possible way to reach him. While trying to tell his nephew how to get back to the tree his hold gave way and he fell, striking his face against a rock or some hard substance and cutting a long deep gash near his nose and eye, and otherwise bruising his body. He was unconscious for several minutes, while his uncle bathed and rubbed his face and head with cold water, a pool of which was near where he had fallen.

As soon as he was able to walk he was assisted home and a physician summoned. It was necessary to take several stitches in sewing up the wound on his face.

WELL KNOWN PRINCETON GIRL IS MARRIED.

Miss Melville Akin of Princeton and Dr. A. H. Hearne of Paducah were married last Wednesday at 4:30 o'clock at the home of the bride's parents, Dr. and Mrs. John A. Akin.

The house was beautifully decorated with branches of autumn leaves and berries. Potted plants and vases of chrysanthemums were also used.

Miss Dale Johnson, cousin of the bride was the maid of honor and Mr. George G. Harrison, brother-in-law of the groom was best man. The ring ceremony was used and little Miss Frances Akin was ring bearer.

Immediately after the ceremony Dr. and Mrs. Hearne left for New Orleans. After their return they will be at home to their friends in Paducah.

NEGRO WHO SHOT DEPUTY IS ARRESTED.

Willie Markey, better known as "Buck", the negro who shot Deputy Sheriff George Manley and then escaped, is now behind the bars of the county jail.

While having a barbecue last July a misunderstanding arose between the whites and the blacks and George Yates, white, was seriously cut up. Markey was accused of the cutting and when Manley with two other men went to arrest him he fired several shots at them before they reached the house one of the shots taking effect just above Manley's right eye.

When the negro had emptied his gun he left the house by the rear door and escaped.

Nothing had been heard of him since until Tuesday of last week, although a reward had been offered by the county and Sheriff Chandler for his capture.

Chief of police Frank Smith of Mt. Vernon, Ind., seeing an account of the reward offered in the Press, wrote to Mr. Manley for a full description of the negro. By this description Smith recognized the negro and arrested him while he was eating his supper. He was about 12 miles from Mt. Vernon in the Wabash bottoms shucking corn.

Chief Smith telegraphed here Tuesday, Nov. 4th that he had Markey in custody and for the sheriff or one of his deputies to meet him in Evansville the next day to bring the negro here.

Mr. Manley left on the early train Wednesday and came back that afternoon with Buck looking hale and hearty as if he had been faring well while a fugitive.

LOCAL RED CROSS COMPLIMENTED.

Miss Ola Arick, field representative of the Civilian Relief department of the American Red Cross, Cleveland, Ohio, visited the Crittenden county chapter recently. She was pleased with the work being done by Mrs. W. J. Deboe for the soldiers and sailors and their families. Contrary to the general opinion, the work of this department has not decreased since the war ended but is increasing. Mrs. Deboe is glad to give assistance or information on the following points:

Undelivered Liberty Bonds. Back pay or travel pay. Unpaid or overdue allotments or allowances. Compensation and vocational training. Insurance.

Mrs. Deboe is especially anxious to get in touch with all men who were injured or suffered with any disease, no matter how slight, while in service or as a result of service. She can also give accurate information about the six different policies into which war risk insurance will be of interest to ex-soldiers can be converted. A fact which in that recently the government passed a law giving men 18 months to re-instate government insurance after they had allowed it to lapse. The office of the Red Cross is in the Post Office building and all soldiers and sailors and their families are welcome.

SOLD A LOT OF MOTHER EARTH.

Our wide awake real estate men, Rochester and McCarthy, have sold more than eighty nine thousand dollars worth of real estate in Crittenden county in the last few days. All of it was sold to parties outside of this county. They have some more snap bargains in lands. Better see them and get a bargain. They say it pays to advertise in The Press.—Adv.

NEITHER BORROW NOR LEND

Both Are Habits to Be Avoided by Those Who Would Be Successful in Life.

Be careful what you borrow and to whom you lend.

Precaution is necessary to us on the long end or the short. The lender holds a whip with a lash which stings. But the borrower whines and it is easy to evade the blows.

It is fine to be noble and help men in distress. Few loans are defaulted when they are deserved. It is always a pleasure to return money which went for a good cause.

To many borrowing becomes a habit, with disastrous results.

A child trained to borrow is likely to steal. It becomes so accustomed to receiving something for nothing that the civility of asking becomes mere form.

The man who borrows things he can get along without usually pays out earnings he will later need. Sometimes he forgets to pay anything at all.

We must remember it is easier to borrow than it is to repay and that loans made to strangers seldom come back. Those who loan little usually save most and those who lend promiscuously have few friends when they go "broke."

We are always happiest when we live within our means. But we should not be mean while we live.

If a man has money to lend he should place it where it will do the most good. If he must borrow he should ask for less than he thinks he needs.—Walter I. Robinson in Indianapolis Star.

MAN HAS INGENIOUS SCHEME

Crippled Mendicant Makes Good Living by Lurching Against Passers-By, Pretending to Collapse.

A crippled mendicant, whose helplessness has excited the pity of many West end shoppers, employs a novel—and profitable—method of supplementing his match-selling business. He appeals to pedestrians by falling against them.

The other night he stood in the middle of the pavement, near Piccadilly, his crutches wedged under his arms, while other people had to walk carefully around him. Suddenly he gave a lurch forward against two men, his misshapen legs doubled up, and he would have collapsed if the men had not caught him and held him upright.

While he struggled to readjust his crutches, one of them handed him a shilling, the other added sixpence, and the cripple crawled away mournfully.

"That's the third time he's done it within an hour," said an observant policeman. "He makes from ten shillings to a pound a day, and he never opens his mouth."—London Express.

PLATING BY A NEW PROCESS.

A company at Elizabeth, N. J., is plating iron sheets with copper by a new process, says the Scientific American. The plating metal is applied to the sheet in the form of a soft mixture by means of rolls, such as inking rolls. The sheet, after being coated with this mixture, is automatically carried forward and deposited on a link-belt conveyor, which carries it through a furnace maintained at a temperature well above that of molten copper. The basic principle involved in this method lies in the application of the plating metal to the sheet while the sheet is cold and then melting the metal in place on the sheet under conditions which are favorable to the formation of the plating.

S. O. S.

As a verbal token, S. O. S. has achieved distinction throughout the world. In radio language it is the distressed sailor's call for help; in France it represented, as every doughboy knows, the services of supply. Now, in England, S. O. S. means Scarcity of Servants.

THEY ALL ARE NOWADAYS.

"Who's the homely woman over there?" asked the visitor of the New Yorker.

"Oh, she's one of our striking chorus girls," he replied.

HEIGHTS OF LUXURY.

"Will gave a diamond necklace lately to his wife."

"That's nothing. Tom lets his have fried chicken for dinner every Sunday."

IT PAYS TO ADVERTISE.

Last summer at the Chautauqua a very capable company put on a play by that name—

The play was a very comical one—and as most of our readers are familiar with the play—having been brought in to see it by the advertising in The Press—I am not going to burden you with a repetition of the story.

But the fact remains that there was a lot of truth in the facts this play brought out—though put over the footlights as comedy. If you will only stop to consider that every big business in the world today was made by advertising—and keeping at it. I could name a dozen or more offhand that would have never been heard of more than fifty miles away from their place of business had it not been for their big advertising campaigns and today their names are a household word throughout the country—and they keep it so—by advertising.

Furthermore if you will show me a town where the merchants are good advertisers and good merchandisers and I will show you a town that has well kept streets, waterworks, electric lights all the time and all the nice things that make life more pleasant and profitable—in other words a town that is on the map.

Advertising brings people to town—and when they come to town they usually spend some money. Money spent in the home town is money kept at home for use at home—hence the ability of the towns with good advertisers to have the modern improvements. There is absolutely no need for people living in a city the size of Marion to go somewhere else to spend their money—but if you think they do not just look over the personal columns of this paper and see the names of the people who are going to the city shopping. And who can blame them—they are with few exceptions not asked to spend their money at home—and how can you expect people to go any where for anything unless they know it is there? And how can you expect them to know it is there if they are informed it is to be had?

Marion is wonderfully located from a business standpoint and the merchants here should do at least a half million dollars a year more business than they do—the prescription to bring this about is advertising—just plain ADVERTISING. That will bring it here and keep it here. Just tell 'em what you have and what you want for it—that will get them every time. No use to worry about the mail order houses—they don't give anything away—they make too much money for anything like that—but they sure do believe in advertising—and live up to it.

WHAT YOU GET FOR WHAT YOU
PAY IS MORE IMPORTANT THAN
WHAT YOU PAY.

You have found that everything you buy costs more than it formerly did. It applies to every necessity of life as well as the things you wear.

You will find that clothes cost too much to attempt to let the price mark decide what you shall buy. It is all right to experiment if you care to when things are normal, but now the risk is too great.

There is no risk when you buy High Art clothes. The High Art guarantee is just as broad as it ever was. High Art prices are just as fair in every way as they were 5, or 10, or 50 years ago. You will find you still get the most for your money here.

Owensboro, Ky., Nov. 13, 1919.

"My husband says he's afraid I'll eat him out of house and home, since taking Trutona," Mrs. Lucy Louminhauser, 106 West Main St., said recently.

"I had the flu last October and since then I have been in a generally run-down condition," she continued. "It seemed that a chronic cold had settled in my side, and at times, I ached all over. I didn't sleep well and felt so badly in the mornings that I could hardly drag myself out of bed. I never cared for anything to eat and had become so weak that I couldn't raise my arm above my head."

"It's hard to believe, but one bottle of Trutona has actually straightened me up. The terrible pains in my body have disappeared now and my nerves are perfectly steady. I can extend my arms full length and my hands will remain as steady as a child's. This is remarkable, too, for I couldn't drink my coffee without spilling it, before I began using Trutona. I eat as I never ate before and am gaining my strength rapidly. I'm truly grateful for the relief Trutona gave me."

Trutona is now being introduced and explained in J. H. Orme's new Drug Store.

Lay a bet on
rolling 'em with

PRINCE ALBERT

the national joy smoke

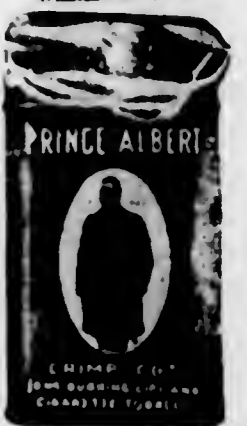

ROLLING your own cigarettes with Prince Albert is just about as joyous a sideline as you ever carried around in your grip! For, take it at any angle, you never got such quality, flavor, fragrance and coolness in a makin's cigarette in your life as every "P. A. home-made" will present you!

Prince Albert puts new smokenotions under your bonnet! It's so delightful rolled into a cigarette—and, so easy to roll! And, you just take to it like you been doing it since away back! You see, P. A. is crimp cut and a cinch to handle! It stays put—and you don't lose a lot when you start to hug the paper around the tobacco!

You'll like Prince Albert in a jummy pipe as much as you do in a home-rolled cigarette, too! Brie and parch are cut out by our exclusive patented process. You know P. A. is the tobacco that has led three men to smoke pipes where one was smoked before. Yes sir, Prince Albert blazed the way. And, me-o-my, what a wad of smokesport will ripple your way every time you fill up!

A warning your way-on, you'll find happy red bags, fully red lips, handsome good and—what's more—practical round crystal glass holder with sponge moisture top that keeps Prince Albert in such perfect condition!

TAKE ON NEW LEASE OF LIFE.

American Indians Seem to Have Renewed Vitality and May Be Saved From Extinction.

The world's most of arms which has saved some of the racial minorities of Europe from extinction by the oppression of more powerful nations has put out of view the silent but dramatic struggle now at home to preserve from extinction by the even more ruthless process of disease, our own most interesting racial remnant, the American Indian. The few thousands of genuine tradition that remained on the various government reservations, after years, despite the most efficient of government experts, been dying at a far greater rate than they are born, although as a whole they have been economically prosperous and well cared for. They seemed near a living race, putting away ancient conditions, without home or future in a land that knew them not. But after a sustained and intense study of years, a new dramatic strategy has been buried forever in government reports: the latent vitality of this aged hand were somehow passed to new life, and diseases of blood to cope with, overcome, says the Review. In 1914 Otto Sells, the commissioner of Indian affairs, was able to announce that, for the first time since they came to know the new life, the birth rate of the Indians in the United States exceeded the death rate.

"GOOD GRAY POET" HONORED

Name of Walt Whitman Bestowed on Famous Rock Situated Near Bon Echo, Ontario.

A host of pilgrims were at Bon Echo, Ontario, to do homage to the memory of the "good gray poet," for they are members of the Walt Whitman club, which was holding its annual convention at Bon Echo, 20 miles away in the woods.

Flora McDonald Denison, the founder of this club, is the owner of the Echo inn, and its neighbor, Bon Echo rock. This rocky giant, generally known as the Gibraltar of Canada, is an isolated headland rising sheer for almost 500 feet from the shadowed, placid, unfathomable waters of Lake Maxinaw. It has long been a magnet that has drawn geologists, botanists, lovers of nature and adventurous souls—the latter coming in search of a legendary store of silver cached by Indians long ago upon the plateau top.

The outstanding event of the convention was the rechristening of this rock as "Old Walt." Horace Tranter, Whitman's friend and biographer, took part in the interesting program arranged for this occasion. A bas-relief of Whitman is to be carved on one of the faces of the rock by a prominent sculptor. Bon Echo strives to be a living monument to Whitman and his teachings. Brotherly love and democracy in its highest sense permeate its atmosphere and add to the physical attractions that nature has lavished upon this region.—Canadian News Letter.

BAPTIST WOMEN TO RAISE \$15,000,000

FIFTH OF SUM SOUGHT IN FIVE-
YEAR PROGRAM WILL COME
FROM THEM.

ARE DOING A LARGE WORK

Hospitals, Mountain Schools, Good
Will Centers and Church Build-
ing Funds Maintained by
Them In Addition To
Regular Gifts.

MISS KATHLEEN MALLORY
Corresponding Secretary, W. M. U.
Baltimore.

Evidencing the larger sphere which women have come to occupy in church life, as well as other activities, when the Baptist 75 Million Campaign was decided upon at the meeting of the Southern Baptist Convention in Atlanta last May, the women, through their regular organization, the Woman's Missionary Union, at once agreed to be responsible for one-fifth of the sum sought, or \$15,000,000. This means that the Baptist women of the South will raise for missions of all kinds, Christian education and benevolences, the sum of \$3,000,000 a year for the next five years, in addition to their contributions to local enterprises and special work.

Through the channels of the Woman's Missionary Union, with headquarters at Baltimore, Md., the Baptist women of the South have since their organization contributed more than \$5,000,000 in cash to various denominational purposes. With the addition of boxes of food and clothing sent to orphanages and other benevolent institutions, the total of their contributions through this channel has reached \$5,710,433.71.

Miss Kathleen Mallory is the corresponding secretary of the Woman's Missionary Union, and in appreciation of the service she has rendered in that connection the Baptist women of Alabama have established the Kathleen Mallory Hospital for Women at Lathrop, Ala. Shantung, China, Miss Mallory being a native of Alabama.

Women of many of the other states have also undertaken special enterprises of their own. Those of Georgia, for instance, established the Ayers Hospital for Women at Hwanghien, China, a girls' school at Kumamoto, Japan, the Catherine Bryan Kindergarten School at Canton, China, and the Mary P. Williamson School for Girls at Blue Ridge, Ga., a school designed especially for the education of girls in the mountainous section of that state.

Many of the other state unions have special projects such as Good Will Centers in the tenement, factory and mining districts, where effort is made to bring more sunshine and enlightenment and love into the homes and lives of needy families, especially those of foreign birth; church building funds; scholarships for young women who want to obtain training for special Christian service, and similar undertakings.

The general W. M. U., representing all the women of the Southern Baptist Convention, owns and operates the Women's Training School at Louisville, Ky., which has already sent out 700 trained women for special service in all parts of the world; and has established the Margaret Fund for the education in the Baptist schools of the South the sons and daughters of missionaries on the foreign fields, and the Fannie E. S. Heck Memorial, a church building fund established in honor of one of the greatest leaders Southern Baptist women have known. But money for the support of these institutions as well as that for the payment of the women's pledge of \$15,000,000 in the 75 Million Campaign, will be raised by the actual work of the women and through economy and sacrifice. Church fairs, bazaar, suppers, ice cream socials and the like, are frowned upon by the organized Baptist women of the South as unworthy means for raising funds for carrying forward the work of the kingdom of God and their contributions will not come from this source, it is announced.

SACRED FLAG WELL GUARDED

Standard of the Prophet Mahomet
Meet Holy Thing to the Mind
of Moslems.

The sacred standard of the prophet Mahomet is enveloped in 40 coverings of green taffeta and is inclosed besides in a case of green cloth, which contains a Koran written by the Khalifa Omar himself, and, furthermore, the silver keys of the Kaaba, which Sultan Selim I received from the shereef of Mecca.

The standard is 12 feet high and the golden ornament—a closed hand—that surmounts it contains another copy of the Koran, written by the Khalifa Omar III, the successor of Mahomet. It is kept at Constantinople.

In times of peace the precious standard is guarded in the Hall of the Noble Vestment. Thus is styled the dress worn by the prophet, though it is now in rags like the flag itself. In the same hall in which the tunic hangs is also preserved all other venerated relics of the Moslem world, such as the sacred teeth, the holy beard, the sacred stirrup, the saber and the bow of Mahomet, as well as the arms and armor of the first caliphs.

In a war a magnificent tent is erected for the reception of that sacred standard, which is attached by silver rings to a lance of ebony. This custom calls to mind the little temple in which was deposited the eagle of the Roman legions, as related by Dionysius Cassius. At the end of each campaign the sacred standard is again replaced with great solemnity in a richly ornamented chest.—Flaneur in Indianapolis Star.

WHEN THE FLOWERS SLEEP

All Have Their Appointed Periods for
Rest, Much as Does the
Human Family.

That flowers sleep at various intervals of the day and night, according to their fertilization periods, furnishes one of the many instances which prove the singular adaptability of everything in nature. The daisy opens at sunrise and closes at sunset, and is fittingly termed "Day's Eye." The morning glory opens its flower with the break of day. The "four o'clock" awakes at four o'clock in the morning, but closes its eyes in the middle of the day. The dandelion is in full bloom only while there is strong light. The reason for this peculiar selection of hours of flowers is due to the method by which they are fertilized.

Flowers which are open during the day are fertilized by flying daylight insects, and it would be no advantage to them to be open during the night. The same habits and methods are followed by the flowers open at night. Thus the habits of flowers are in a way determined by the habits of the insects from which they derive fertilization. Flowers getting their fertilization from the wind never sleep.

MEN DISLIKE GLOVES.

In Venezuela gloves are used by men to a much less extent than by women. Army officers are practically the only men ever seen wearing gloves in the street. Soldiers wear white cotton gloves with full dress uniforms on special holidays. Men wearing evening dress carry white kid gloves, but seldom put them on, and under these conditions one pair will last for years. The only work gloves in use are those of rubber for electrical work.

STRICTLY CONVENTIONAL.

"Which is the first and most important sacrament?" asked a Sunday school teacher of a girl preparing for confirmation.

"Marriage," was the prompt response.

"No, baptism is the first and most important sacrament," the teacher corrected.

"Not in our family," said the pupil haughtily; "we are respectable."

A DOCILE PATIENT.

"You need more fresh air." "All right, doctor. Give me a prescription for a touring car and I'll hand it to my husband to have filled."—Louisville Courier-Journal.

A GOLF TERM.

"What do you know about golf?" "It's the one game where you can praise a lady's form to her face without being considered impertinent."

SKUNK NOT MANKIND'S ENEMY

Writer Asserts That Protection of
Misunderstood Animal Is Good
Financial Proposition.

Despised and maligned for years, the much-abused skunk is beginning to find friends among those whose inclination or business take them out of doors. That the skunk is a financial proposition of moment is seriously insisted in an editorial of the Hunter-Trapper-Trapper, of Columbus, Ohio. This magazine urges protection to the skunk, and goes on to define what it means by protection.

"Protection does not mean merely confining trapping to the open season now provided for in a majority of our states," says the writer. "This is not enough. This valuable animal must be taught that man is not his enemy but his friend. With skunks that is not difficult. They are neither savage, cunning nor have they instinctive hate for man possessed by many of their larger brethren. Indeed the skunk leads itself to domestication with great ease.

"Allow them to rove the fields unmolested during the warmer months, feed them in case of heavy snows and allow them to raise their young untroubled. In the end this proceeding will be found to pay.

NEAR ACCEPTANCE

"How was it you told people that you could marry Miss Smithers if you wanted to?" "She told me herself I could have the refusal of her hand."

BRIDAL TRIP IN AIR.

A couple were married not far from London the other day who a few weeks previously had had a "flip" at Hendon together, says London Answers. They enjoyed their first aerial trip so much that they booked the aviator to take them on their honeymoon then and there. The machine in which they departed on their wedding trip of 200 miles was a limousine, and the cabin, in which the happy couple were seated tandem, fashion—the only drawback—was decorated with a bouquet of roses.

It was two-thirty when the machine left the shadow of the church. Luggage was stored in the back of the machine, and the lady had a book to read, although it is not on record whether she read it or not. The machine arrived at Fowey at 7:30, stopping at Bournemouth and Plymouth en route. The actual flying time was 2 hours 35 minutes.

PORTABLE CIRCULAR SAW.

Among recent electric tool novelties is a portable circular saw, provided with the handle of an ordinary hand saw. The tool weighs only 12 pounds with its one-quarter-horsepower motor, uses a three-inch cross-cut or rip saw, has a suitable depth gauge and is provided with an aluminum base grooved to slide on a guide track when necessary. The blade is covered with a safety guard.

THE ADVANTAGE.

"Some of the German aristocrats seem to object to a soldier as the head of the government."

"A saddler ought to be able better than most men to work well in harness."

NO SACRIFICE FOR STYLE.

"What a pity this hasn't been a hot summer."

"Why so?"

"It is very hard on the girls who have been wearing their summer furs."

CRITICISM.

"That fellow isn't worth his salt." "I wouldn't say that exactly, but I will say that he surely isn't worth the price of beefsteak and potatoes."

LASHES HIMSELF INTO FURY

Zoologists Explain Why Lion Swishes
His Tail When in an Exception-
ally Angry Mood.

The one thing which the king of beasts has in common with the tame or garden variety of house cat is his propensity to lash his tail from side to side when he gets very angry, and some zoologists now declare that the end of the lion's tail has a hard and horny skin and that he virtually "lashes himself into a fury" with it. Each time it strikes him it stings and increases his rage, so that he scourges himself as if he were a member of some ancient religious order instead of a mighty hunter.

Placed as the lion looks in the zoo, he can travel swiftly and hunt his prey with skill and courage, though he does not always disdain to devour carrion, despite the stories often told of his fastidious tastes.

When in the zoo he is usually placid and gentle, except at feeding times, but the lady lions are frequently born with cleft palates, so that few of them survive in their homes behind the bars.

The lion is a faithful mate to his wife, but she is fickle and keeps him forever watching her to prevent her sending her whimpering call out after some prowling Lothario of the forest.

Negro Soldier Frankly Outspoken
When Fellow Doughboy Sprang an
Unusually "Tall" Yarn.

Two negro soldiers of the Ninety-second (Buffalo) division were discussing life in the United States before the war, as they waited for the mess bugle.

"Now, when I was a lion tamer in a circus," began one.

"A lion tamer!" demanded the other incredulously.

"I sure was!"

"What is a lion tamer? I never heard of that trade before."

"A lion tamer is a guy who goes into a lion's cage. He locks the door after him and puts the key in his pocket. Then he goes over to the lion and opens his mouth. Then he takes hold of the lion's tongue and wags it. Then he goes to the door of the cage, unlocks it, and walks out."

"Well, man," ejaculated the other. "You never was a lion tamer, you're just a lyn' fool, dat's what you is."

ANCIENT REMEDY BEST.

Dr. Beverley Robinson of New York criticizes the newer methods of treating "colds" and influenza. He condemns such drugs as acetanilid, aspirin, antipyrin and phenacetin, except in very small doses, and insists that nothing has yet been found to surpass in effectiveness such old-fashioned remedies as castor oil and sweet spirit of nitre. But, he adds, "among all the drugs with which I am familiar there is none quite equal to the salubrious of ammonium, given in the beginning of a cold or influenza, in sufficient and frequently repeated doses." But even this does not do away with the need for carefully regulated diet, rest in bed and other such simple precautions as have been proven effective.

NO LUCK AT ALL.

"Been fishing?" "Yep." "Catched anything?" "No. Didn't even have a big one get away."

HUMAN PROTOTYPES.

"My fruit trees," said the amateur farmer, "remind me of some people."

"In what way?"

"Their modest bearing."—Judge.

MERELY TRIFLE.

"Your father objects to your bathing suit," said Mrs. Cumrox.

"I don't see," protested Gwendolyn, "how he could possibly object to a little thing like that!"

ITS SORT.

"How would you characterize economy of these extra hours?"

"I should class them as light savings."

Methodist Church Enters Ypres and Brussels

GREAT MEMORIAL CHURCH WILL
BE ERECTED IN DEVASTATED
BELGIAN CITY.

Brussels to Be Center of Large Enter-
prise On the Part of South
Americans.

Nashville, Tenn.—A great Methodist Church, erected and maintained by the Methodist Episcopal Church, South, will be erected amid the ruins of Ypres, in Belgium. This was stated by Dr. W. B. Beauchamp, director-general of the Centenary Commission, who, with Bishop James Atkins, the bishop in charge of European mission fields, just returned from Belgium.

The city of Ypres, terribly devastated will not be rebuilt in its entirety. The once magnificent cloth hall, the finest in the world, the cathedral, the town hall, the churches, and other large ruins will be left as a perpetual memorial.

On these the city mayor has caused signs to be erected reading: "This is holy ground. No stone of this fabric may be taken away. It is a heritage for all civilized peoples."

A City of Memorials.

Ypres is a city of memorials. The British government has selected a site and will erect a great museum as a monument to her fallen heroes.

Similar buildings will be built by Canada, New Zealand, Australia and Belgium.

In the midst of these memorials the Southern Methodist Church will be erected. It will contain a library, reading room and social equipment. In addition to its auditorium and class rooms.

"Ypres will always be a mecca for travelers," said Dr. Beauchamp. "Thousands and millions will flock to that battlefield. Our Church will not only minister to the people of Ypres and the surrounding territory, but it will also serve these visitors."

Great Plant in Brussels.

The Methodists have also purchased a great building in Brussels, which will be their headquarters for Europe. It will contain offices, an auditorium, reading and lecture rooms, a publishing plant and social equipment.

The general secretaries of the two Protestant bodies of Belgium, the state church and the free church, will have offices in this building, thus making it the Protestant center of Belgium.

Southern Methodists have also purchased a half interest in the Protestant hospital of Brussels. It will be enlarged and its capacity will be doubled.

Relief Stations Established.

Dr. Beauchamp reported that thousands of children will freeze to death this winter, because the Germans flooded the mines and filled them with concrete, thus making it impossible for the people to obtain fuel.

"Children, with their mothers," said Dr. Beauchamp, "are now living in the abandoned trench boxes and dugouts left by the enemy."

In order to cope with the situation the Methodists have arranged to open relief stations at Ypres, St. Quentin, Mendeles, Belgrade and other points.

A full contingent of physicians, nurses, directors and social workers will be sent abroad as soon as they can be found.

The Church has a fund of \$5,000,000 for European construction work. This will be spent in Serbia, France, Belgium, Poland and Bohemia.

Revival Planned For Entire South

Widest Evangelistic Effort Ever Made
Will Be Launched Soon.

Nashville, Tenn.—Plans for an evangelistic movement which will cover the entire South and operate in 20,000 churches at the same time are being formulated by the Centenary Commission and the evangelistic committee of the M. E. church, South.

Bishop T. V. W. Darlington is the chairman of the joint directing committee and Dr. O. E. Goddard is the executive secretary.

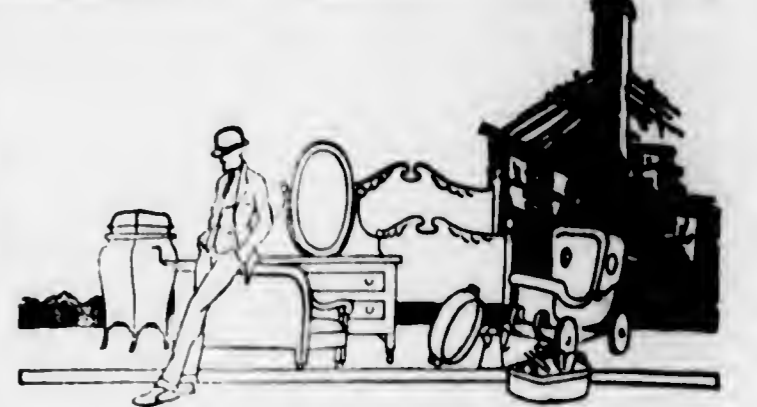

Standard Plan Made.

The movement will operate according to a standard plan. This plan provides for a preliminary survey of the entire South to discover what persons are not affiliated with any religious denomination.

Dr. A. C. Zambrano is in charge of the survey, and he has made preliminary investigations in a large number of typical sections as samples to guide pastors in surveying their own fields.

When these surveys are completed the evangelistic movement will be launched in an effort to interest all non-church members whose names have been secured.

It has been estimated that half a million workers will be enlisted to personally interview the persons who have no church membership.
